

Management & Coaching Skills Trainer

Job Description

We're looking to expand our associate team with world class Management & Coaching Skills Trainers who are passionate about developing managers to be the best they can be. Our programmes deliver exceptional results to the delegates and in turn, the client organisation.

We pride ourselves on the expertise of our team and we believe it is one of our key USP's. Therefore, our expectations are significantly higher than many other organisations and we never compromise. As a minimum, we ask that you meet all of the following criteria:

- Have delivered management training to managers across all levels
- Have an outstanding track record of delivering results for your clients (and can evidence this)

We'd love to hear from you if...

- You're based in the UK or elsewhere globally and are expert at delivering training virtually
- You're excited to deliver our award winning programmes in your own unique style
- You're passionate about developing managers to be the best they can be and delivering a Return on Investment (ROI) for their organisation
- You have a wealth of happy clients who'll attest to your outstanding training ability and you have capacity to deliver exceptional training to new client organisations via Notion

It would be an added bonus if you're able to fluently deliver training in multiple languages which is becoming increasingly important for Notion as our client base expands globally. We are particularly looking for those that can speak German, French, Japanese, Italian and Chinese.

You'll work with house-hold name organisations such as Sainsburys, Jewson, Morgan Stanley, University of Exeter, Mitchells and Butlers, Hitachi and RSM to name a few, to transform their managers. You will also join the Notion peer network and be invited to join our conferences and other regular events. Most importantly, you can focus on what you enjoy - training! Notion provides you with full admin support, as well as high quality materials for use with our clients, so that you can focus solely on the delivery.

By joining us you're becoming a part of our mission - to transform 1-million STAR® Managers by the end of 2025. Our programme has been academically proven to change management behaviour and measurably increase engagement, retention, collaboration, innovation, performance and productivity across organisations within 6-months.

It really works, but don't just take our word for it, here's what our clients and learners say about us:

"STAR® Manager provides a really positive return on investment. Collectively those individual changes, when you put them together, make a HUGE difference not only to the culture but also to the development of the organisation as well."

"By asking powerful questions and engaging my team members in discussions around decision making, I feel that I've started to get to know my team better. I now see them as allies in working towards a more streamlined and effective service."

If all of the above sounds like something you would like to be a part of, we would love for you to get in touch. Simply follow this link for more information on how to apply: <https://www.businesscoaching.co.uk/coach-vacancies>.

Thank you for your interest in Notion!
